To whom it may concern,

John Doherty, and AMC, did a wonderful job for us, and I would strongly recommend them.

During a time of deliberations about how to move forward with our document scanning/storage needs, and after considering several solutions, John pointed out a different solution at a fraction of what we were looking at (making less potential income for AMC, but recommending a solution that better fit us).

Putting together a comprehensive and competitive solution, AMC showed up as scheduled every day, and actually **completed the two phase project two days earlier than planned, and came in well under the estimated budget.**

Throughout the entire process, John and his team were attentive, professional, and responsive. They were also creative and dedicated enough to overcome the few unplanned issues that came up during their days here.

Again, I would strongly recommend AMC services – John is great to deal with.

Please do not hesitate to contact me with any questions,

Izhar Sharon  
  
General Manager

PLEASANT STREET ASSOCIATES, LLC

Mr. John Doherty  
Applied Microimage Corporation  
26 Bedford Street  
Waltham, MA 02453

Dear Mr. Doherty,

I am writing to thank you for the excellent service you and your team gave the offices of Pleasant Street Associates, LLC. It was truly a pleasure doing business with you. We appreciate your professionalism in giving us a lot of information up front, a thorough quote and quite a bit of hand-holding answering our multiple questions before we even signed with you. Additionally, thank you for the added personal touch like the help you gave me while I was boxing materials. You were very responsive anytime I had questions or concerns and were accommodating with our needs for pick-up and multiple deliveries.

Despite our project taking place during the holidays, your company had our scanning done very quickly. Since I have had the scanned files back for a few months, I have been accessing them regularly. (How nice not to have to pull out a bunch of paper!) The quality is exceptional and you all did a wonderful job capturing all of the tiny pieces of paper that were included in our files.

Best wishes in your future endeavors!

Sincerely,

Michelle Pattridge
